Article

[Default](#)

[Teaser](#)

Your settings have been saved.

Field	Region	Label	Format
Content items can be displayed using different view modes: Teaser, Full content, Plain, RSS, etc. Teaser is a short format that is typically used in lists of multiple content items. Full content is typically used when the content is displayed on its own page.			

Here, you can define which fields are shown and hidden when Article content is displayed in each view mode, and define how the fields are displayed in each view mode.
