**The Drupal Association is the global non-profit that supports and coordinates the open source Drupal project and its worldwide community.**

Put simply: we build the tools that let the community build Drupal.

We're the connective infrastructure of the Drupal project — physical and social — supporting thousands of contributors who maintain the 1M+ websites that depend on Drupal to stay secure, current, and free.

2025 DA Highlights

**29,823**

Improvements made to Drupal from 8,819 contributors.
