Collection and Banking of Tissue, Blood ; Machine name: `mcc_ic` [Edit](#)

The human-readable name of this content type. This text will be displayed as part of the list on the *Add new content* page. It is recommended that this name begin with a capital letter and contain only letters, numbers, and spaces. This name must be unique.

Description

Dr. Richard Schwab and his colleagues are collecting tissue, blood, urine and saliva samples from patients with an appointment to be seen at the Moores UCSD Cancer Center, whether or not they have a diagnosis of cancer. These samples will be used to perform research to understand more about cancer which will help in making better treatments and in finding ways to diagnose cancer earlier. Patients planned for surgical removal of a cancer at a UCSD Healthcare hospital may also participate in this project and can choose to give unneeded portions of their cancer for research use.

Describe this content type. The text will be displayed on the *Add new content* page.

Options for this responses content type

Choose display options for this responses content type

Options for the response completing form

Users submits their answers on the LimeSurvey website. Choose options about the completing form.

Choose the way to redirect the user to the LimeSurvey site, in order to fill the survey

- print a simple hypertext link
- print a form button
- automatic and immediate redirection
- open into an iframe
- open into a lightbox from the 'colorbox' module (dimensions can be set using percents or pixels)
- open into a lightbox from the 'lightbox2' module (dimensions can be set using pixels only)

In order to automatically close the frame, you should :

- simply check the checkbox : Automatically overwrites the LimeSurvey end url
- or manually set on your LimeSurvey admin user interface :
 - 'End URL' to 'http://localhost/~mona/iDASH/ic-icon/backfromsurvey/mcc_ic/back' (or an equivalent relative url),

- Automatically overwrite the LimeSurvey end url into the LimeSurvey database, in order to reflect the above settings.

Or edit it manually from the LimeSurvey admin interface.

Choose the iframe/lightbox dimensions

- automatically fit to the user window
- Invisible iframe ! No vertical scrolling bar into on the iframe (beta)
- Use thoses dimensions : **width** px or %; **height** px or %

Set 'o' to automatically fit the frame on one dimension.

Choose expiration period for completing the survey

Since printing the survey to its final submission

Once the form is submitted, redirect the user to

- its answer view page
- this specific page : For example : node/458, leave it blank for the home page.

In order to allow a user to view its submission datas, you need to **set the appropriate rights** (*Collection and Banking of Tissue, Blood and Urine for Use in Cancer Research: View own content*) on the [permission setting page](#)

- Hide the languages dropdown on the Drupal page preceding the LimeSurvey survey form page.
If the 'Locale' core module is enabled. The default language is set below.

Options for the respond title

Choose how the title associated to each response will be created

Prefix for the response title

Delete the value for an empty title

Suffix, to identify a single response

- An increment number
- A random number between : **Minimal number** and **Maximal number**

For example : *Collection and Banking of Tissue, Blood and Urine for Use in Cancer Research #1*

- The responses title can not be changed

Submission form settings Respond title	
Publishing options Published , Create new revision	Default options <input checked="" type="checkbox"/> Published <input type="checkbox"/> Promoted to front page <input type="checkbox"/> Sticky at top of lists <input checked="" type="checkbox"/> Create new revision Users with the <i>Administer content</i> permission will be able to override these options.
