

Janrain Engage Drupal 7.x Module

Scope:

1. Provide all of the login capabilities available in Janrain's Engage product.
2. Provide the full functionality of Engage's Social Publishing widget.
3. Develop a consistent and great User Experience for the module install and setup.
4. Conform to Drupal's best practices for development and communication.
5. Build a modular module that allows for greater extensibility and customization.

Current Design Approach

- Break the current feature set into modules
 - Create a new core module
 - Create dependant modules
 - Sign In
 - Profile Data
 - Social Publishing
 - Admin UI
- Update the user experience to best practices of both Drupal and Janrain
 - Icons
 - HTML/CSS compliance
 - Browser testing

Plan of Attack

- Target Milestones and Dates
 - Beta by Mid October
 - Final release before Q1 2011
- Janrain Engineering resources committed to development
- Solicit feedback and participation from the Drupal community
