## Welcome to your new Drupal website!

Please follow these steps to set up and start using your website:

### 1. Configure your website

Once logged in, visit [the configuration page](#) to configure all aspects of your website.

### 2. Enable additional features

Next, visit the [module manager](#) to find additional modules in the [Drupal modules download section](#).

### 3. Customize your website

To change the "look and feel" of your website, choose from one of the included themes or download additional themes from the [Drupal theme download section](#).

### 4. Start posting content

Finally, you can [create content](#) on your website. You have promoted a post to the front page.

For more information, please refer to the [help section](#), or the [online Drupal handbooks](#). You may also post at the [Drupal forum](#), or view the wide range of [other support options](#) available.
