ubercart 7.x-3.5

Posted by [longwave](#) on July 11, 2013 at 4:58pm

Release notes

New features since 7.x-3.4:

- [#1916806](#) by DanZ: Added deletion of packages and shipment records when order is deleted.
- [#2017865](#) by hoesi, longwave: Converted order print button into a full order pane.
- [#1533286](#) by mandreato, longwave: Add support for Variable module to allow translation of checkout help, COD and check policy and stock notification messages.
- [#1969654](#): Added example 'maximum product quantity' rule.
- [#1969654](#): Added node property getter and quantity property setter to cart item entity for use with Rules.
- [#1911278](#) by fiftyz, longwave, DanZ: Added Views support for shipments and packages.
- [#1884512](#) by DanZ, longwave: Allowed ordered product entities to have fields.

Bug fixes since 7.x-3.4:

- [#1983358](#): Fixed 'pending approval' email should be sent to blocked users created at checkout.
- [#2031661](#): Fixed undefined property: UcOrder::\$quote in uc_quote_condition_order_shipping_method().
- [#2002748](#) by fiftyz: Fixed Views product price handler to use theme('uc_price') wrapper.
- [#2024839](#): Remove workaround for 'SSL: fatal protocol error'.
- [#2023213](#) by stewart.adam: Fixed PHP notice if a shipping method does not offer shipping quotes.
- [#1985404](#): Fixed new user creation failure if customer specifies an existing username, then clears it.
- [#1570038](#): Fixed UcOrderProductMetadataController class not found when using Salesforce module.
- [#1595034](#): Fixed customer search to include abandoned orders.
- [#1993148](#): Fixed undefined variable: null in uc_payment_method_settings_form().
- [#1985982](#): Fixed PDOException when trying to use cart link IDs over 32 characters.
- [#1983898](#): Fixed [order:products] token output.
- [#1867606](#): Removed undeclared dependency on uc_cart from uc_payment.
- [#1503810](#): Fixed PayPal Pending order status to use 'post checkout' order state.
- [#1940586](#): Fixed default checkout completion messages to include HTML tags.
- [#1981010](#) by coveryoureyes: Fixed calculation for order total cost field in Views.
- [#1196602](#): Removed obsolete order pane checkbox settings in favour of 'manage display' tab.
- [#1565822](#): Fixed fatal error: __clone method called on non-object in uc_taxes.module for sites upgraded from Drupal 5.
- [#1460684](#): Fixed multi-line output for order address tokens in Rules.
- [#1970444](#): Fixed incorrect token usage in order update email.
- [#620844](#): Fixed division by zero after editing product kits that already exist in customer carts.
- [#1970444](#): Fixed incorrect token usage in role expiration emails.
- [#1942500](#): Fixed product class ID field to be limited to 32 characters.
- [#1935980](#) by v-ua: Fixed triggers in hook_action_info() implementations.
- [#1881902](#): Merged and cleaned up various CSS files.
- [#1933424](#) by r.aubin, longwave: Fixed logging of Authorize.Net failed charge transactions.
- [#914828](#): Removed non-working shipping settings from product kit node form.

Project components

Title	Name
2Checkout	uc_2checkout
